

**Innovative Environmental Services (IES) Ltd** is an independent GLP-certified Contract Research Organization (CRO) with its headquarters in Witterswil, close to the city of Basel (Switzerland). We perform Environmental Fate, Metabolism, Ecotoxicological and Analytical Chemistry Testing to support the development, registration and stewardship of agrochemicals, chemical products and pharmaceuticals.

**To strengthen our team, we are looking for a qualified:**

## **Study Director Metabolism (100%)**

### **Your main responsibilities:**

- Independent planning and conducting of studies primarily in the fields of crop metabolism and environmental fate
- Write study plans, reports and expert statements
- Lead and instruct laboratory staff in context with technical aspects of the studies
- Develop and validate analytical methods
- General laboratory and administrative task according to the principles of good laboratory practice (GLP)
- Working with radiolabelled substances [ $^{14}\text{C}$ ]
- Maintain international client relations

### **Requirements:**

- University degree in natural sciences preferably in chemistry, biology, environmental sciences, horticulture, plant ecology or a similar qualification
- GLP and work experience are of an advantage but not a prerequisite
- Very good German and English
- Good IT knowledge
- Ability to work independently and a very high willingness to learn
- Team spirit, flexibility, commitment

### **Your Chance:**

This job advertisement addresses professionals preferably with a CRO background as well as to young professionals who have recently completed their studies. We offer you responsibility, independence and longterm occupation in an internationally successful company. After an adequate training you will be able to implement your talents and foster your skills. You will further benefit from the advantages of a medium-sized company in private ownership, flat hierarchies and small, dynamic, international teams.
